Dr. Stocker
RESOLUTION

Authorizing the creation of a wholly owned subsidiary public benefit corporation by the President of the New York City Health and Hospitals Corporation ("the Corporation") by the means deemed appropriate by the President, including without limitation the filing of a Certificate of Incorporation of HHC ACO Inc. ("the ACO Subsidiary") with the New York State Secretary of State, for the purpose of establishing an Accountable Care Organization ("ACO") whose purposes include meeting the purposes and goals of the Medicare Shared Savings Program;

AND

Authorizing the negotiation and execution, by the President, of ACO participation agreements among the Corporation, the ACO Subsidiary and individually, or collectively, the Mount Sinai School of Medicine, New York University School of Medicine, Physician Affiliate Group of New York, P.C., Staten Island University Hospital and other entities identified by the President, in order to function as ACO participants in the ACO Subsidiary;

AND

Authorizing the filing, by the President, on behalf of the Corporation, of a Notice of Intent and Application to Participate in the Medicare Shared Savings Program.

WHEREAS, the Corporation has for some years entered into affiliation agreements pursuant to which various medical schools, voluntary hospitals and professional corporations ("the Affiliates") provide General Care and Behavioral Health Services at Corporation facilities; and

WHEREAS, the services provided by these Affiliates include the clinical and ancillary services of physicians and non-physician staff sufficient to meet promptly the needs of all patients seeking inpatient and outpatient services, as well as all necessary teaching, administration, quality assurance and supervisory services as may be required; and

WHEREAS, contract payments are made by the Corporation to reimburse the Affiliates for the salaries and fringe benefits of their employed providers and associated overhead expenses, and may include, in addition, compensation earned through satisfaction of certain benchmarks (examples of which are set forth in Attachment A, annexed hereto), which are intended to improve quality of care, eliminate inefficiencies and reduce costs – goals that further the purposes and goals of the ACO Subsidiary and the Medicare Shared Savings Program; and

WHEREAS, the Corporation, in the exercise of its powers and fulfillment of its corporate purposes, desires to use the ACO Subsidiary to function as an ACO, with the Corporation and any Affiliates that have negotiated and executed ACO participation agreements with the Corporation and
the ACO Subsidiary, in order to further the purposes including, but not limited to, meeting the purposes and goals of the Medicare Shared Savings Program.

NOW, THEREFORE, BE IT

RESOLVED, that the creation of a wholly owned subsidiary public benefit corporation by the President of the Corporation, by the means deemed appropriate by the President, including without limitation the filing of a Certificate of Incorporation of the ACO Subsidiary with the New York State Secretary of State, is authorized for the purpose of establishing an ACO, whose purposes include, but are not limited to, meeting the purposes and goals of the Medicare Shared Savings Program; and

BE IT FURTHER RESOLVED, that the President is authorized to negotiate and execute ACO participation agreements among the Corporation, the ACO Subsidiary and individually, or collectively, the Mount Sinai School of Medicine, New York University School of Medicine, Physician Affiliate Group of New York, P.C., Staten Island University Hospital and other entities identified by the President, in order to function as ACO participants in the ACO Subsidiary; and

BE IT FURTHER RESOLVED, that the President is authorized to file, on behalf of the Corporation, a Notice of Intent and Application to Participate in the Medicare Shared Savings Program.

Executive Summary of Proposed Board Resolution
Authorizing the Creation of a Subsidiary Corporation
To Establish an Accountable Care Organization and
Participate in the Medicare Shared Savings Program

Senior HHC management has determined that it is in the best interests of HHC and its patients for HHC to form, along with its Affiliates, an Accountable Care Organization ("ACO") that would apply to the federal Centers for Medicare and Medicaid Services ("CMS") to participate in the Medicare Shared Savings Program ("MSSP"). CMS Regulations require that a separate legal entity be formed when two or more otherwise independent entities participate together in an ACO under the MSSP. The proposed Board Resolution accordingly authorizes the creation of an HHC subsidiary corporation (HHC ACO Inc.) for the purpose of establishing an ACO through which HHC and Affiliates can participate in the MSSP and similar programs.

Briefly, ACOs are a health care reform model authorized in the Patient Protection and Affordable Care Act of 2010, involving groups of doctors, hospitals, and other health care providers who come together voluntarily to give coordinated high quality care to the patients they serve. When an ACO succeeds in delivering high-quality care at lower cost, it will share in the savings it achieves for the Medicare program, which savings are then distributed among the ACO participants. The MSSP (also authorized by the Patient Protection and Affordable Care Act) is a three-year program in which ACOs will be responsible for the care of a defined group of Medicare Fee-For-Service beneficiaries.

A principal advantage of participating in the MSSP is that HHC would be allowed to implement certain otherwise prohibited performance incentive payments to its Affiliates, so long as those payments were aligned with the goals of the MSSP (i.e., improving quality of care, eliminating inefficiencies, and reducing cost). (Sample performance indicators are set forth in Attachment A to the proposed Resolution.) CMS has authorized waivers of certain fraud and abuse statutes for ACO participants, including federal laws prohibiting "gain-sharing" payments to physicians to reduce services (e.g., by reducing lengths of stay). Such waivers may protect ACO startup arrangements that are consistent with the goals of the MSSP for up to a year prior to an ACO participant’s submission of an MSSP application. To participate in an ACO by January 1, 2013, the next available start date, the ACO must submit to CMS, by June 15, 2012, a Notice of Intent, and, by August 30, 2012, an MSSP application.

Five HHC officers have been identified as the initial Board of Directors of HHC ACO Inc. CMS regulations, however, require that "meaningful participation" in the composition and control of an ACO governing body be afforded to all ACO participants (and a Medicare beneficiary); HHC management therefore contemplates that a minority of seats on the ACO governing body would be awarded to HHC Affiliates or other ACO participants, with HHC retaining majority control.
