If you’re 50 or older, a colonoscopy is your next stop. It’s the best way to find and remove colon polyps before they become cancer. Speak to your doctor about a colonoscopy and other ways to protect yourself from colon cancer.

NYC Health + Hospitals offers colonoscopies at little or no cost.*

To find out more, visit nychealthandhospitals.org today!

*Based on program eligibility requirements. If you have health insurance, your plan will be billed and co-payments may apply. Financial counselors are available to discuss payment options. Colon cancer screening is provided based on a clinical assessment.
